Calendar Survey

The Nevada Water Education Calendar is developed to promote an understanding of the role water plays in our lives. Please respond to the following survey so we can better serve our schools.

Never Rarely Occasionally Regularly

Do you use the Water Education Calendar to provide knowledge of the importance of water resources and water use in Nevada?

Do you use the monthly topics within the calendar as a teaching aid to stimulate discussion and awareness about our environment, water pollution prevention, and water conservation?

Do you think water education should be used throughout the curriculum in Nevada?

Have you used the Water Concentration activity and lesson plan located in center pullout of the 2002-2003 calendar?

Will you use the 2003-2004 Water Education Calendar in your classroom?

What is a main environmental concern in your community?

What topic/issues would you like to see featured in the Water Education Calendar?

The Nonpoint Source (NPS) Program, a branch of the Bureau of Water Quality Planning (BWQP) within the Nevada Division of Environmental Protection (NDEP) promotes and sponsors the Nevada Water Educational Calendar with support from the U.S. Bureau of Reclamation and U.S. Environmental Protection Agency.
